Important Extended Payment Option Information

The following terms and conditions apply to your Extended Payment Option Account.

Finance Charge: To calculate the Finance Charge, we multiply the Daily Periodic Rate, by the Average Daily Balance for the billing period. Then we multiply the product by the number of days in the billing period. To get the Average Daily Balance we take the beginning balance of the Extended Payment Option ("Account") each day, add any new Account Charges and accrued and unpaid Finance Charges and subtract any payments or credits. Then we add up the daily balances for the billing period and divide by the number of days in the billing period. This gives us the Average Daily Balance. This method of computation of the Average Daily Balance results in compound interest. If in any 12 month period prior to this billing period you were in default on your Account or any other American Express Account, the APR applicable to your entire Account balance will be 23.99%.

Payments: Please see the payment information and instructions on page 7. Remember, your payment each month should be for at least the Minimum Amount Due or the Total Amount Due, whichever appears on the Card Account Statement. Either amount includes the Account Minimum Payment shown on the Account Statement and the balance due on your Card Account. If you want to pay more than the Minimum Payment (up to the entire Account New Balance), make your payment for the larger amount and the excess will be applied to your Account.

How to avoid Additional Finance Charges: To avoid additional Finance Charges the Account New Balance must be paid in full by the Closing Date of the next billing period. American Express Centurion Bank will not impose Finance Charges for Account Charges made in any billing period for which payment in full has been received on or before the Closing Date of the next billing period.

Important Extended Payment Option Information

The following terms and conditions apply to your Extended Payment Option Account.

Finance Charge: To calculate the Finance Charge, we multiply the Daily Periodic Rate, by the Average Daily Balance for the billing period. Then we multiply the product by the number of days in the billing period. To get the Average Daily Balance we take the beginning balance of the Extended Payment Option ("Account") each day, add any new Account Charges and accrued and unpaid Finance Charges and subtract any payments or credits. Then we add up the daily balances for the billing period and divide by the number of days in the billing period. This gives us the Average Daily Balance. This method of computation of the Average Daily Balance results in compound interest. If in any 12 month period ending with the Closing Date of the current billing period you were in default on your Account or any other American Express Account, the APR applicable to your entire Account balance will be 23.99%.

Payments: Please see the payment information and instructions on page 6. Remember, your payment each month should be for at least the Minimum Amount Due or the Total Amount Due, whichever appears on the Card Account Statement. Either amount includes the Account Minimum Payment shown on the Account Statement and the balance due on your Card Account. If you want to pay more than the Minimum Payment (up to the entire Account New Balance), make your payment for the larger amount and the excess will be applied to your Account.

How to avoid Additional Finance Charges: To avoid additional Finance Charges the Account New Balance must be paid in full by the Closing Date of the next billing period. American Express Centurion Bank will not impose Finance Charges for Account Charges made in any billing period for which payment in full has been received on or before the Closing Date of the next billing period.

Payments: Payments received after 12:00 noon or on weekends or holidays may not be credited until the next business day. Payments must be in US Dollars and drawn on a bank located in the US. Unless you are paying by computer or by phone, please submit your payment in the enclosed envelope with the payment coupon and the account number indicated on the check. Please do not send post-dated checks. They will be deposited upon receipt. If payment is made in any other form or at any other location, there may be a delay in processing. We reserve the right to process checks electronically, at first presentment and any re-presentments, by transmitting the amount of the check, routing number, account number and check serial number to your financial institution. Your checking account may be debited as soon as the same day we receive your payment. If we can not collect the funds electronically at first presentment, we may issue a draft against your account for the amount of the check.
Late Fees: We will assess fees for late payment in accordance with the Cardmember Agreement, as amended. To avoid fees for late payment, we must receive your payment for the amount due on this statement, not later than the closing date of your next statement.
Lost or Stolen Card: If the Card is lost or stolen, telephone us immediately at the number indicated on your paper statement or click on the Customer Service link online. Outside the U.S., call collect or contact the nearest American Express Travel Service Office or other local American Express office.
In Case of Errors or Questions About Your Bill: If you think your bill is wrong, or if you need more information about a transaction which appears on your statement, write or call the Customer Service department as indicated on your paper statement, or click on the Customer Service link online. We must hear from you no later than 60 days after we sent you the first bill on which the error or problem appeared.
What We Need From You When You Have A Billing Inquiry: 1. Your name and account number; 2. The dollar amount of the suspected error; 3. Describe the error and explain why you believe there is an error. If you need more information, describe the item you are unsure about. While we are investigating the amount in question, you are still obligated to pay the parts of your bill that are not in question. Please retain any receipts pertinent to your claim.
In Case of Errors or Questions About Your Electronic Transfers: Please contact us by visiting us online at open.americanexpress.com, or you can call us at 1-800-IPAY-AXP for Pay By Phone and Pay By Computer issues, or 1-800-CASH-NOW for Express Cash and automatic payment issues. You can also write to the Express Cash Operations address indicated on your statement. If you think your statement, receipt, or transaction is wrong, please contact us as soon as possible. We must hear from you no later than 60 days after we sent you the FIRST statement on which the problem or error appeared.
When contacting us: 1. Tell us your name and account number; **2.** Provide the dollar amount of the suspected error; **3.** Describe the error or the transfer you are unsure of, and explain as clearly as you can why you believe there is an error or why you need more information. We will investigate your complaint and correct any error promptly. If we take more than 10 business days to do this, we will credit your account for the amount you think is in error, so that you will have use of the money during the time it takes us to complete our investigation.
Credit Balance: If a credit balance (designated "CR") is shown on this statement, no payment is required. You may make charges against the credit balance or request a refund. Requests for refunds should be made in writing to the Refund Unit at the Customer Service address indicated on your paper statement, or click on the Customer Service link online.

Important Extended Payment Option Information

The following terms and conditions apply to your Extended Payment Option Account.

Finance Charge: To calculate the Finance Charge, we multiply the Daily Periodic Rate, by the Average Daily Balance for the billing period. Then we multiply the product by the number of days in the billing period. To get the Average Daily Balance we take the beginning balance of the Extended Payment Option ("Account") each day, add any new Account Charges and accrued and unpaid Finance Charges and subtract any payments or credits. Then we add up the daily balances for the billing period and divide by the number of days in the billing period. This gives us the Average Daily Balance. This method of computation of the Average Daily Balance results in compound interest. If in any 12 month period ending with the Closing Date of the current billing period you were in default on your Account or any other American Express Account, the APR applicable to your entire Account balance will be 23.99%.

Payments: Please see the payment information and instructions on page 6. Remember, your payment each month should be for at least the Minimum Amount Due or the Total Amount Due, whichever appears on the Card Account Statement. Either amount includes the Account Minimum Payment shown on the Account Statement and the balance due on your Card Account. If you want to pay more than the Minimum Payment (up to the entire Account New Balance), make your payment for the larger amount and the excess will be applied to your Account.

How to avoid Additional Finance Charges: To avoid additional Finance Charges the Account New Balance must be paid in full by the Closing Date of the next billing period. American Express Centurion Bank will not impose Finance Charges for Account Charges made in any billing period for which payment in full has been received on or before the Closing Date of the next billing period.

Important Extended Payment Option Information

The following terms and conditions apply to your Extended Payment Option Account.

Finance Charge: To calculate the Finance Charge, we multiply the Daily Periodic Rate, by the Average Daily Balance for the billing period. Then we multiply the product by the number of days in the billing period. To get the Average Daily Balance we take the beginning balance of the Extended Payment Option ("Account") each day, add any new Account Charges and accrued and unpaid Finance Charges and subtract any payments or credits. Then we add up the daily balances for the billing period and divide by the number of days in the billing period. This gives us the Average Daily Balance. This method of computation of the Average Daily Balance results in compound interest. If in any 12 month period ending with the Closing Date of the current billing period you were in default on your Account or any other American Express Account, the APR applicable to your entire Account balance will be 23.99%.

Payments: Please see the payment information and instructions on page 6. Remember, your payment each month should be for at least the Minimum Amount Due or the Total Amount Due, whichever appears on the Card Account Statement. Either amount includes the Account Minimum Payment shown on the Account Statement and the balance due on your Card Account. If you want to pay more than the Minimum Payment (up to the entire Account New Balance), make your payment for the larger amount and the excess will be applied to your Account.

How to avoid Additional Finance Charges: To avoid additional Finance Charges the Account New Balance must be paid in full by the Closing Date of the next billing period. American Express Centurion Bank will not impose Finance Charges for Account Charges made in any billing period for which payment in full has been received on or before the Closing Date of the next billing period.

Important Extended Payment Option Information

The following terms and conditions apply to your Extended Payment Option Account.

Finance Charge: To calculate the Finance Charge, we multiply the Daily Periodic Rate, by the Average Daily Balance for the billing period. Then we multiply the product by the number of days in the billing period. To get the Average Daily Balance we take the beginning balance of the Extended Payment Option ("Account") each day, add any new Account Charges and accrued and unpaid Finance Charges and subtract any payments or credits. Then we add up the daily balances for the billing period and divide by the number of days in the billing period. This gives us the Average Daily Balance. This method of computation of the Average Daily Balance results in compound interest. If in any 12 month period ending with the Closing Date of the current billing period you were in default on your Account or any other American Express Account, the APR applicable to your entire Account balance will be 23.99%.

Payments: Please see the payment information and instructions on page 6. Remember, your payment each month should be for at least the Minimum Amount Due or the Total Amount Due, whichever appears on the Card Account Statement. Either amount includes the Account Minimum Payment shown on the Account Statement and the balance due on your Card Account. If you want to pay more than the Minimum Payment (up to the entire Account New Balance), make your payment for the larger amount and the excess will be applied to your Account.

How to avoid Additional Finance Charges: To avoid additional Finance Charges the Account New Balance must be paid in full by the Closing Date of the next billing period. American Express Centurion Bank will not impose Finance Charges for Account Charges made in any billing period for which payment in full has been received on or before the Closing Date of the next billing period.

Payments: Payments received after 12:00 noon or on weekends or holidays may not be credited until the next business day. Payments must be in US Dollars and drawn on a bank located in the US. Unless you are paying by computer or by phone, please submit your payment in the enclosed envelope with the payment coupon and the account number indicated on the check. Please do not send post-dated checks. They will be deposited upon receipt. If payment is made in any other form or at any other location, there may be a delay in processing. We reserve the right to process checks electronically, at first presentment and any re-presentments, by transmitting the amount of the check, routing number, account number and check serial number to your financial institution. Your checking account may be debited as soon as the same day we receive your payment. If we can not collect the funds electronically at first presentment, we may issue a draft against your account for the amount of the check.

Late Fees: We will assess fees for late payment in accordance with the Cardmember Agreement, as amended. To avoid fees for late payment, we must receive your payment for the amount due on this statement, not later than the closing date of your next statement.

Lost or Stolen Card: If the Card is lost or stolen, telephone us immediately at the number indicated on your paper statement or click on the Customer Service link online. Outside the U.S., call collect or contact the nearest American Express Travel Service Office or other local American Express office.

In Case of Errors or Questions About Your Bill: If you think your bill is wrong, or if you need more information about a transaction which appears on your statement, write or call the Customer Service department as indicated on your paper statement, or click on the Customer Service link online. We must hear from you no later than 60 days after we sent you the first bill on which the error or problem appeared.

What We Need From You When You Have A Billing Inquiry: 1. Your name and account number; 2. The dollar amount of the suspected error; 3. Describe the error and explain why you believe there is an error. If you need more information, describe the item you are unsure about. While we are investigating the amount in question, you are still obligated to pay the parts of your bill that are not in question. Please retain any receipts pertinent to your claim.

In Case of Errors or Questions About Your Electronic Transfers: Please contact us by visiting us online at open.americanexpress.com, or you can call us at 1-800-IPAY-AXP for Pay By Phone and Pay By Computer issues, or 1-800-CASH-NOW for Express Cash and automatic payment issues. You can also write to the Express Cash Operations address indicated on your statement. If you think your statement, receipt, or transaction is wrong, please contact us as soon as possible. We must hear from you no later than 60 days after we sent you the FIRST statement on which the problem or error appeared.

When contacting us: 1. Tell us your name and account number; **2.** Provide the dollar amount of the suspected error; **3.** Describe the error or the transfer you are unsure of, and explain as clearly as you can why you believe there is an error or why you need more information. We will investigate your complaint and correct any error promptly. If we take more than 10 business days to do this, we will credit your account for the amount you think is in error, so that you will have use of the money during the time it takes us to complete our investigation.

Credit Balance: If a credit balance (designated "CR") is shown on this statement, no payment is required. You may make charges against the credit balance or request a refund. Requests for refunds should be made in writing to the Refund Unit at the Customer Service address indicated on your paper statement, or click on the Customer Service link online.

Important Extended Payment Option Information

The following terms and conditions apply to your Extended Payment Option Account.

Finance Charge: To calculate the Finance Charge, we multiply the Daily Periodic Rate, by the Average Daily Balance for the billing period. Then we multiply the product by the number of days in the billing period. To get the Average Daily Balance we take the beginning balance of the Extended Payment Option ("Account") each day, add any new Account Charges and accrued and unpaid Finance Charges and subtract any payments or credits. Then we add up the daily balances for the billing period and divide by the number of days in the billing period. This gives us the Average Daily Balance. This method of computation of the Average Daily Balance results in compound interest. If in any 12 month period ending with the Closing Date of the current billing period you were in default on your Account or any other American Express Account, the APR applicable to your entire Account balance will be 23.99%.

Payments: Please see the payment information and instructions on page 6. Remember, your payment each month should be for at least the Minimum Amount Due or the Total Amount Due, whichever appears on the Card Account Statement. Either amount includes the Account Minimum Payment shown on the Account Statement and the balance due on your Card Account. If you want to pay more than the Minimum Payment (up to the entire Account New Balance), make your payment for the larger amount and the excess will be applied to your Account.

How to avoid Additional Finance Charges: To avoid additional Finance Charges the Account New Balance must be paid in full by the Closing Date of the next billing period. American Express Centurion Bank will not impose Finance Charges for Account Charges made in any billing period for which payment in full has been received on or before the Closing Date of the next billing period.

Payments: Payments received after 12:00 noon or on weekends or holidays may not be credited until the next business day. Payments must be in US Dollars and drawn on a bank located in the US. Unless you are paying by computer or by phone, please submit your payment in the enclosed envelope with the payment coupon and the account number indicated on the check. Please do not send post-dated checks. They will be deposited upon receipt. If payment is made in any other form or at any other location, there may be a delay in processing. We reserve the right to process checks electronically, at first presentment and any re-presentments, by transmitting the amount of the check, routing number, account number and check serial number to your financial institution. Your checking account may be debited as soon as the same day we receive your payment. If we can not collect the funds electronically at first presentment, we may issue a draft against your account for the amount of the check.

Late Fees: We will assess fees for late payment in accordance with the Cardmember Agreement, as amended. To avoid fees for late payment, we must receive your payment for the amount due on this statement, not later than the closing date of your next statement.

Lost or Stolen Card: If the Card is lost or stolen, telephone us immediately at the number indicated on your paper statement or click on the Customer Service link online. Outside the U.S., call collect or contact the nearest American Express Travel Service Office or other local American Express office.

In Case of Errors or Questions About Your Bill: If you think your bill is wrong, or if you need more information about a transaction which appears on your statement, write or call the Customer Service department as indicated on your paper statement, or click on the Customer Service link online. We must hear from you no later than 60 days after we sent you the first bill on which the error or problem appeared.

What We Need From You When You Have A Billing Inquiry: 1. Your name and account number; 2. The dollar amount of the suspected error; 3. Describe the error and explain why you believe there is an error. If you need more information, describe the item you are unsure about. While we are investigating the amount in question, you are still obligated to pay the parts of your bill that are not in question. Please retain any receipts pertinent to your claim.

In Case of Errors or Questions About Your Electronic Transfers: Please contact us by visiting us online at open.americanexpress.com, or you can call us at 1-800-IPAY-AXP for Pay By Phone and Pay By Computer issues, or 1-800-CASH-NOW for Express Cash and automatic payment issues. You can also write to the Express Cash Operations address indicated on your statement. If you think your statement, receipt, or transaction is wrong, please contact us as soon as possible. We must hear from you no later than 60 days after we sent you the FIRST statement on which the problem or error appeared.

When contacting us: 1. Tell us your name and account number; **2.** Provide the dollar amount of the suspected error; **3.** Describe the error or the transfer you are unsure of, and explain as clearly as you can why you believe there is an error or why you need more information. We will investigate your complaint and correct any error promptly. If we take more than 10 business days to do this, we will credit your account for the amount you think is in error, so that you will have use of the money during the time it takes us to complete our investigation.

Credit Balance: If a credit balance (designated "CR") is shown on this statement, no payment is required. You may make charges against the credit balance or request a refund. Requests for refunds should be made in writing to the Refund Unit at the Customer Service address indicated on your paper statement, or click on the Customer Service link online.

Important Extended Payment Option Information

The following terms and conditions apply to your Extended Payment Option Account.

Finance Charge: To calculate the Finance Charge, we multiply the Daily Periodic Rate, by the Average Daily Balance for the billing period. Then we multiply the product by the number of days in the billing period. To get the Average Daily Balance we take the beginning balance of the Extended Payment Option ("Account") each day, add any new Account Charges and accrued and unpaid Finance Charges and subtract any payments or credits. Then we add up the daily balances for the billing period and divide by the number of days in the billing period. This gives us the Average Daily Balance. This method of computation of the Average Daily Balance results in compound interest. If in any 12 month period ending with the Closing Date of the current billing period you were in default on your Account or any other American Express Account, the APR applicable to your entire Account balance will be 23.99%.

Payments: Please see the payment information and instructions on page 4. Remember, your payment each month should be for at least the Minimum Amount Due or the Total Amount Due, whichever appears on the Card Account Statement. Either amount includes the Account Minimum Payment shown on the Account Statement and the balance due on your Card Account. If you want to pay more than the Minimum Payment (up to the entire Account New Balance), make your payment for the larger amount and the excess will be applied to your Account.

How to avoid Additional Finance Charges: To avoid additional Finance Charges the Account New Balance must be paid in full by the Closing Date of the next billing period. American Express Centurion Bank will not impose Finance Charges for Account Charges made in any billing period for which payment in full has been received on or before the Closing Date of the next billing period.

Notice of Changes to Your Agreement and Benefits

Changes in Your Account Agreement

You'll find complete program information in your Cardmember Agreement. If you have questions regarding this notice, please call the telephone number listed at the back of your American Express Card.

We are making **Important Changes** to the Agreement governing the American Express® Card Account identified on the enclosed statement or notice. This notice formally amends the Agreement and any contrary or conflicting language in such Agreement is fully superseded. All terms of the Agreement not amended herein remain in full force and effect.

Please review this notice carefully and file it in a safe place. This information should also be shared with Additional Cardmember(s), if applicable, on your Account because it applies to their use of your Account as well. The changes made to the Agreement will become effective as stated in connection with each change.

Liability

Effective immediately, we are clarifying the way we explain liability for charges on the Account. We are adding the following sentence to the "Liability—Immediate Payment" section in your Agreement:

"The Company and the Basic Cardmember are also liable for any losses as well as any other consequences related to or resulting from actions taken by any third parties authorized to act on behalf of the Company and the Basic Cardmember."

Changes in Your Card Benefits

Please note that not all Card products offer these benefits. Additionally, only residents of the United States, Puerto Rico, and the U.S. Virgin Islands are eligible for coverage under these Plans.

Travel Accident Insurance Description of Coverage Rider Under Group Policy AX0948

The following two changes take effect May 1, 2003:

The definition of "Covered Trip" is revised:

2. the Covered Person's *entire* fare for such trip *on that Common Carrier Conveyance* has been actually charged to a specific American Express Card Account prior to any Injury.

This is an important notice of changes to the terms and conditions of your American Express® Card Account. We recommend that you carefully review the changes, and then file this Notice for future reference.

The **DESCRIPTION OF BENEFITS** section is revised:

"**Common Carrier Benefit:** This benefit is payable if the Covered Person sustains Injury as a result of an Accident which occurs while riding solely as a passenger in, or boarding, or alighting from or being struck by a Common Carrier Conveyance *used on* a Covered Trip."

In all other respects, the provisions and conditions of the Description of Coverage remain the same.

Important Extended Payment Option Information

The following terms and conditions apply to your Extended Payment Option Account.

Finance Charge: To calculate the Finance Charge, we multiply the Daily Periodic Rate, by the Average Daily Balance for the billing period. Then we multiply the product by the number of days in the billing period. To get the Average Daily Balance we take the beginning balance of the Extended Payment Option ("Account") each day, add any new Account Charges and accrued and unpaid Finance Charges and subtract any payments or credits. Then we add up the daily balances for the billing period and divide by the number of days in the billing period. This gives us the Average Daily Balance. This method of computation of the Average Daily Balance results in compound interest. If in any 12 month period ending with the Closing Date of the current billing period you were in default on your Account or any other American Express Account, the APR applicable to your entire Account balance will be 23.99%.

Payments: Please see the payment information and instructions on page 6. Remember, your payment each month should be for at least the Minimum Amount Due or the Total Amount Due, whichever appears on the Card Account Statement. Either amount includes the Account Minimum Payment shown on the Account Statement and the balance due on your Card Account. If you want to pay more than the Minimum Payment (up to the entire Account New Balance), make your payment for the larger amount and the excess will be applied to your Account.

How to avoid Additional Finance Charges: To avoid additional Finance Charges the Account New Balance must be paid in full by the Closing Date of the next billing period. American Express Centurion Bank will not impose Finance Charges for Account Charges made in any billing period for which payment in full has been received on or before the Closing Date of the next billing period.

Payments: Payments received after 12:00 noon or on weekends or holidays may not be credited until the next business day. Payments must be in US Dollars and drawn on a bank located in the US. Unless you are paying by computer or by phone, please submit your payment in the enclosed envelope with the payment coupon and the account number indicated on the check. Please do not send post-dated checks. They will be deposited upon receipt. If payment is made in any other form or at any other location, there may be a delay in processing. We reserve the right to process checks electronically, at first presentment and any re-presentments, by transmitting the amount of the check, routing number, account number and check serial number to your financial institution. Your checking account may be debited as soon as the same day we receive your payment. If we can not collect the funds electronically at first presentment, we may issue a draft against your account for the amount of the check.

Late Fees: We will assess fees for late payment in accordance with the Cardmember Agreement, as amended. To avoid fees for late payment, we must receive your payment for the amount due on this statement, not later than the closing date of your next statement.

Lost or Stolen Card: If the Card is lost or stolen, telephone us immediately at the number indicated on your paper statement or click on the Customer Service link online. Outside the U.S., call collect or contact the nearest American Express Travel Service Office or other local American Express office.

In Case of Errors or Questions About Your Bill: If you think your bill is wrong, or if you need more information about a transaction which appears on your statement, write or call the Customer Service department as indicated on your paper statement, or click on the Customer Service link online. We must hear from you no later than 60 days after we sent you the first bill on which the error or problem appeared.

What We Need From You When You Have A Billing Inquiry: 1. Your name and account number; 2. The dollar amount of the suspected error; 3. Describe the error and explain why you believe there is an error. If you need more information, describe the item you are unsure about. While we are investigating the amount in question, you are still obligated to pay the parts of your bill that are not in question. Please retain any receipts pertinent to your claim.

In Case of Errors or Questions About Your Electronic Transfers: Please contact us by visiting us online at open.americanexpress.com, or you can call us at 1-800-IPAY-AXP for Pay By Phone and Pay By Computer issues, or 1-800-CASH-NOW for Express Cash and automatic payment issues. You can also write to the Express Cash Operations address indicated on your statement. If you think your statement, receipt, or transaction is wrong, please contact us as soon as possible. We must hear from you no later than 60 days after we sent you the FIRST statement on which the problem or error appeared.

When contacting us: 1. Tell us your name and account number; **2.** Provide the dollar amount of the suspected error; **3.** Describe the error or the transfer you are unsure of, and explain as clearly as you can why you believe there is an error or why you need more information. We will investigate your complaint and correct any error promptly. If we take more than 10 business days to do this, we will credit your account for the amount you think is in error, so that you will have use of the money during the time it takes us to complete our investigation.

Credit Balance: If a credit balance (designated "CR") is shown on this statement, no payment is required. You may make charges against the credit balance or request a refund. Requests for refunds should be made in writing to the Refund Unit at the Customer Service address indicated on your paper statement, or click on the Customer Service link online.

Important Extended Payment Option Information

The following terms and conditions apply to your Extended Payment Option Account.

Finance Charge: To calculate the Finance Charge, we multiply the Daily Periodic Rate, by the Average Daily Balance for the billing period. Then we multiply the product by the number of days in the billing period. To get the Average Daily Balance we take the beginning balance of the Extended Payment Option ("Account") each day, add any new Account Charges and accrued and unpaid Finance Charges and subtract any payments or credits. Then we add up the daily balances for the billing period and divide by the number of days in the billing period. This gives us the Average Daily Balance. This method of computation of the Average Daily Balance results in compound interest. If in any 12 month period ending with the Closing Date of the current billing period you were in default on your Account or any other American Express Account, the APR applicable to your entire Account balance will be 23.99%.

Payments: Please see the payment information and instructions on page 4. Remember, your payment each month should be for at least the Minimum Amount Due or the Total Amount Due, whichever appears on the Card Account Statement. Either amount includes the Account Minimum Payment shown on the Account Statement and the balance due on your Card Account. If you want to pay more than the Minimum Payment (up to the entire Account New Balance), make your payment for the larger amount and the excess will be applied to your Account.

How to avoid Additional Finance Charges: To avoid additional Finance Charges the Account New Balance must be paid in full by the Closing Date of the next billing period. American Express Centurion Bank will not impose Finance Charges for Account Charges *made in* any billing period for which payment in full has been received on or before the Closing Date of the next billing period.

Important Extended Payment Option Information

The following terms and conditions apply to your Extended Payment Option Account.

Finance Charge: To calculate the Finance Charge, we multiply the Daily Periodic Rate, by the Average Daily Balance for the billing period. Then we multiply the product by the number of days in the billing period. To get the Average Daily Balance we take the beginning balance of the Extended Payment Option ("Account") each day, add any new Account Charges and accrued and unpaid Finance Charges and subtract any payments or credits. Then we add up the daily balances for the billing period and divide by the number of days in the billing period. This gives us the Average Daily Balance. This method of computation of the Average Daily Balance results in compound interest. If in any 12 month period ending with the Closing Date of the current billing period you were in default on your Account or any other American Express Account, the APR applicable to your entire Account balance will be 23.99%.

Payments: Please see the payment information and instructions on page 2. Remember, your payment each month should be for at least the Minimum Amount Due or the Total Amount Due, whichever appears on the Card Account Statement. Either amount includes the Account Minimum Payment shown on the Account Statement and the balance due on your Card Account. If you want to pay more than the Minimum Payment (up to the entire Account New Balance), make your payment for the larger amount and the excess will be applied to your Account.

How to avoid Additional Finance Charges: To avoid additional Finance Charges the Account New Balance must be paid in full by the Closing Date of the next billing period. American Express Centurion Bank will not impose Finance Charges for Account Charges made in any billing period for which payment in full has been received on or before the Closing Date of the next billing period.

Payments: Payments received after 12:00 noon or on weekends or holidays may not be credited until the next business day. Payments must be in US Dollars and drawn on a bank located in the US (other than American Express Centurion Bank). If you are not paying electronically or by phone, please submit your payment in the enclosed envelope with the remittance stub attached and account number indicated on the check. Please do not send post-dated checks. They will be deposited upon receipt. If payment is made in any other form or at any other location, there may be a delay in processing. If your check is returned unpaid by your bank for insufficient funds, we may re-present your check electronically.

Lost or Stolen Card: If the Card is lost or stolen, in the U.S. immediately telephone us at the number indicated on your paper statement, or click on the Customer Service link online. Outside the U.S. contact the nearest American Express Travel Service Office or call any local American Express office.

Finance Charges: We use the average daily balance (including new Purchases) method to compute the balance subject to the FINANCE CHARGE as follows:

1 Take the beginning balances for Purchases (including new Purchases, the annual fee, if any, and other fees) and Cash Advances, respectively, each day, add any accrued but unpaid FINANCE CHARGES and debits applied against Purchases (excluding insurance premiums and Express Cash fees) or Cash Advances that day;
2 Subtract any payments received that day and any credits applied to Purchases and Cash Advances, respectively, that day. The result is the daily balance for Purchases and Cash Advances, respectively, for that day;
3 Add up the daily balances of Purchases and Cash Advances, respectively, for each day in the billing period;
4 Divide each sum by the number of days in the billing period. The quotients are the Average Daily Balance for Purchases(ADBP) and Average Daily Balance for Cash Advances(ADBC), respectively. The ADBP will be considered to be zero if you paid the closing balance on Purchases, if any, shown on your previous month's statement by the payment due date on that statement.

To calculate total FINANCE CHARGES for the billing period, we multiply the Daily Periodic Rate (DPR) for Purchases by the ADBP and multiply the DPR for Cash Advances by the ADBC and multiply the respective resulting numbers by the number of days in the billing cycle. Each DPR is 1/365th of the respective APR. The FINANCE CHARGES derived from the ADBP and ADBC are calculated separately and are added together to produce the total FINANCE CHARGE. Unless otherwise disclosed, Balance Transfers are treated as Purchases for calculating FINANCE CHARGES. Minimum Finance Charge: $0.50.

APR Information: The APRs and DPRs (which appear elsewhere on this statement) may vary based upon the applicable Prime Rate (PR). The PR used to determine the APR is the higher of the PRs listed in *The Wall Street Journal* on the 1st or 20th day (or if such date is not a business day, the next business day) of the prior month. If a promotional rate is in effect, that rate will apply according to the terms disclosed to you when you were offered the promotional oppotunity, as provided in your account agreement.

Fees: For each Cash Advance through Express Cash, 3% of each withdrawal, with a minimum fee of $3.00 and no maximum fee. Late, Overlimit, and Returned Payment Fee: the greater of $30 or 2.99% of the delinquent balance, as per applicable law.

In Case of Errors or Questions About Your Electronic Transfers: Please contact us by calling 1-800-CASH-NOW or write to us at the Funds Access Services address indicated on your paper statement, or click on the Customer Service link online as soon as you can, if you think your statement or receipt is wrong, or if you need more information about a transfer or the statement or receipt. We must hear from you no later than 60 days after we sent you the FIRST statement on which the problem or error appeared.

When contacting us: **1.** Tell us your name and Account number; **2.** Provide the dollar amount of the suspected error; **3.** Describe why you believe there is an error or why you need the information. We will investigate your complaint and will correct any error promptly. If we take more than 10 business days to do this, we will credit your account for the amount you think is in error, so that you will have use of the money during the time it takes us to complete our investigation.

Payments: Payments received after 12:00 noon or on weekends or holidays may not be credited until the next business day. Payments must be in US Dollars and drawn on a bank located in the US (other than American Express Centurion Bank). If you are not paying electronically or by phone, please submit your payment in the enclosed envelope with the remittance stub attached and account number indicated on the check. Please do not send post-dated checks. They will be deposited upon receipt. If payment is made in any other form or at any other location, there may be a delay in processing. If your check is returned unpaid by your bank for insufficient funds, we may re-present your check electronically.

Lost or Stolen Card: If the Card is lost or stolen, in the U.S. immediately telephone us at the number indicated on your paper statement, or click on the Customer Service link online. Outside the U.S. contact the nearest American Express Travel Service Office or call any local American Express office.

Finance Charges: Average Daily Balance Method for Calculation of Finance Charges: We use the Average Daily Balance method to calculate Finance Charges on your Account. Under this method, we figure the Finance Charges on your Account by applying the daily periodic rate to the Average Daily Balance (as described below) for each feature (such as Purchase, Cash Advance and Balance Transfer features) of your Account (including current transactions). To get the Average Daily Balance for each feature, we (1) take the beginning balance for the feature each day (including unpaid Finance Charges from previous billing periods, except for billing addresses in Puerto Rico), (2) add any new transactions, debits, or fees, (3) subtract any payments or credits, and (4) make any appropriate adjustments. *For each day after the first day of the billing period, we also add an amount of interest equal to the previous day's daily balance multiplied by the daily periodic rate for the feature (except for billing addresses in Puerto Rico).* This gives us the daily balance for the feature for that day and the beginning balance for the feature for the next day. If this balance is negative, it is considered to be zero. Then, we add up all the daily balances for the feature for the billing period and divide the total by the number of days in the billing period. This gives us the Average Daily Balance for the feature. For all features except Cash Advances and certain promotions, the Average Daily Balance will be considered to be zero if you paid the New Balance, if any, shown on your previous month's statement by the Payment Due Date shown on that statement. If you multiply the Average Daily Balance for each feature by the number of days in the billing period and the daily periodic rate for that feature, the result will be the Finance Charge assessed on that feature, except for variations caused by rounding. The total Finance Charge for the billing period is calculated by adding the Finance Charges assessed on all features of the Account. *This method of calculating the Average Daily Balance and Finance Charge results in daily compounding of Finance Charges (except for billing addresses in Puerto Rico).* The minimum **Finance Charge** for any billing period in which Finance Charges are imposed is **$0.50**.

In Case of Errors or Questions About Your Electronic Transfers: Please contact us by visiting us online at open.americanexpress.com, or you can call us at 1-800-IPAY-AXP for Pay By Phone and Pay By Computer issues, or 1-800-CASH-NOW for Express Cash and automatic payment issues. You can also write to the Express Cash Operations address indicated on your statement. If you think your statement, receipt, or transaction is wrong, please contact us as soon as possible. We must hear from you no later than 60 days after we sent you the FIRST statement on which the problem or error appeared.

When contacting us: 1. Tell us your name and account number; **2.** Provide the dollar amount of the suspected error; **3.** Describe the error or the transfer you are unsure of, and explain as clearly as you can why you believe there is an error or why you need more information. We will investigate your complaint and correct any error promptly. If we take more than 10 business days to do this, we will credit your account for the amount you think is in error, so that you will have use of the money during the time it takes us to complete our investigation.

Creditor: American Express Centurion Bank. **New York residents** may contact the New York Banking Department to obtain a comparative listing of credit card rates, fees and grace periods by calling 1-800-518-8866.

Payments: Payments received after 12:00 noon or on weekends or holidays may not be credited until the next business day. Payments must be in US Dollars and drawn on a bank located in the US (other than American Express Centurion Bank). If you are not paying electronically or by phone, please submit your payment in the enclosed envelope with the remittance stub attached and account number indicated on the check. Please do not send post-dated checks. They will be deposited upon receipt. If payment is made in any other form or at any other location, there may be a delay in processing. If your check is returned unpaid by your bank for insufficient funds, we may re-present your check electronically.
Lost or Stolen Card: If the Card is lost or stolen, in the U.S. immediately telephone us at the number indicated on your paper statement, or click on the Customer Service link online. Outside the U.S. contact the nearest American Express Travel Service Office or call any local American Express office.
Finance Charges: Average Daily Balance Method for Calculation of Finance Charges: We use the Average Daily Balance method to calculate Finance Charges on your Account. Under this method, we figure the Finance Charges on your Account by applying the daily periodic rate to the Average Daily Balance (as described below) for each feature (such as Purchase, Cash Advance and Balance Transfer features) of your Account (including current transactions). To get the Average Daily Balance for each feature, we (1) take the beginning balance for the feature each day (including unpaid Finance Charges from previous billing periods, except for billing addresses in Puerto Rico), (2) add any new transactions, debits, or fees, (3) subtract any payments or credits, and (4) make any appropriate adjustments. *For each day after the first day of the billing period, we also add an amount of interest equal to the previous day's daily balance multiplied by the daily periodic rate for the feature (except for billing addresses in Puerto Rico).* This gives us the daily balance for the feature for that day and the beginning balance for the feature for the next day. If this balance is negative, it is considered to be zero. Then, we add up all the daily balances for the feature for the billing period and divide the total by the number of days in the billing period. This gives us the Average Daily Balance for the feature. For all features except Cash Advances and certain promotions, the Average Daily Balance will be considered to be zero if you paid the New Balance, if any, shown on your previous month's statement by the Payment Due Date shown on that statement. If you multiply the Average Daily Balance for each feature by the number of days in the billing period and the daily periodic rate for that feature, the result will be the Finance Charge assessed on that feature, except for variations caused by rounding. The total Finance Charge for the billing period is calculated by adding the Finance Charges assessed on all features of the Account. *This method of calculating the Average Daily Balance and Finance Charge results in daily compounding of Finance Charges (except for billing addresses in Puerto Rico).* The minimum **Finance Charge** for any billing period in which Finance Charges are imposed is **$0.50**.
In Case of Errors or Questions About Your Electronic Transfers: Please contact us by visiting us online at open.americanexpress.com, or you can call us at 1-800-IPAY-AXP for Pay By Phone and Pay By Computer issues, or 1-800-CASH-NOW for Express Cash and automatic payment issues. You can also write to the Express Cash Operations address indicated on your statement. If you think your statement, receipt, or transaction is wrong, please contact us as soon as possible. We must hear from you no later than 60 days after we sent you the FIRST statement on which the problem or error appeared.
When contacting us: 1. Tell us your name and account number; **2.** Provide the dollar amount of the suspected error; **3.** Describe the error or the transfer you are unsure of, and explain as clearly as you can why you believe there is an error or why you need more information. We will investigate your complaint and correct any error promptly. If we take more than 10 business days to do this, we will credit your account for the amount you think is in error, so that you will have use of the money during the time it takes us to complete our investigation.

An additional $5 is charged for billing addresses outside the U.S. Renewal Cards are issued every three years. If the Card you carry is damaged, you may have it replaced sooner by calling Customer Service. You may discontinue your Membership by calling Customer Service. Be sure to keep your copy of the charge slips for comparison to your billed charges.

The Statement Closing Date is the last date that charges and credits are processed to appear on the statement. Your account will be Past Due if payment for your previous month's statement was received after the closing date. To keep your account current, pay by the payment due date shown on your statement.

Billing Rights Summary: In Case of Errors or Questions About Your Bill: If you think your bill is wrong, or if you need more information about a transaction which appears on your statement, write or call the Customer Service department as indicated on your paper statement, or click on the Customer Service link online. We must hear from you no later than 60 days after we sent you the first bill on which the error or problem appeared. Although you may telephone us, doing so will not preserve your rights.

What We Need From You When You Have A Billing Inquiry: 1. Your name and account number; **2.** The dollar amount of the suspected error; **3.** Describe the error and explain, if you can, why you believe there is an error. If you need more information, describe the item you are unsure about. You do not have to pay any amount in question while we are investigating, but you are still obligated to pay the parts of your bill that are not in question. While we investigate your inquiry, we cannot report you as delinquent or take any action to collect the amount in question. Please retain any receipts pertinent to your claim.

Special Rules For Charge Card Purchases: If you have a problem with the quality of goods or services that you purchased with the Card, and you have tried in good faith to correct the problem with the merchant, you may not have to pay the remaining amount due on the goods or services. You have this protection only when the purchase price was more than $50 and the purchase was made in your home state or within 100 miles of your mailing address. (If we own or operate the merchant, or if we mailed you the advertisement for the property or services, all purchases are covered regardless of amount or location of purchase.)

In Case of Errors or Questions About Your Electronic Transfers: Please contact us by clicking on the Customer Service Link online at www.americanexpress.com, or you can call us at 1-800-IPAY-AXP for Pay By Phone and Pay By Computer issues, or 1-800-CASH-NOW for Express Cash and automatic payment issues. You can also write to the Express Cash Operations address indicated on your statement. If you think your statement, receipt, or transaction is wrong, please contact us as soon as possible. When contacting us: 1. Tell us your name and account number; **2.** Provide the dollar amount of the suspected error; **3.** Describe the error or the transfer you are unsure of, and explain as clearly as you can why you believe there is an error or why you need more information. We will investigate your complaint and correct any error promptly. If we take more than 10 business days to do this, we will credit your account for the amount you think is in error, so that you will have use of the money during the time it takes us to complete our investigation.

Credit Balance: If a credit balance (designated "CR") is shown on this statement, it represents money owed to you. You may make charges against the credit balance or request a refund. Requests for refunds should be made in writing to the Refund Unit at the Customer Service address indicated on your paper statement, or click on the Customer Service link online. If you do not make sufficient charges against the credit balance or request a refund, we will, within 30 days after expiration of the six-month period following the date of the first statement indicating the credit balance, issue a check to you for the credit balance in your account if the amount is $1.00 or more. **Important Notice to North Dakota Residents:** If an account is past due for two or more billing cycles, a late payment fee of 1.75% of all past due amounts will be added.

Billing Rights Summary: In Case of Errors or Questions About Your Bill: If you think your bill is wrong, or if you need more information about a transaction which appears on your statement, write or call the Customer Service department as indicated on your paper statement, or click on the Customer Service link online. We must hear from you no later than 60 days after we sent you the first bill on which the error or problem appeared. Although you may telephone us, doing so will not preserve your rights.

Your name and account number; **2.** The dollar amount of the suspected error; **3.** Describe the error and explain, if you can, why you believe there is an error. Tell us your name and account number; **2.** Provide the dollar amount of the suspected error; **3.** Describe the error or the transfer you are unsure of, and explain as clearly as you can why you believe there is an error or why you need more information. We will investigate your complaint and correct any error promptly. If we take more than 10 business days to do this, we will credit your account for the amount you think is in error, so that you will have use of the money during the time it takes us to complete our investigation.
Credit Balance: If a credit balance (designated "CR") is shown on this statement, it represents money owed to you. You may make charges against the credit balance or request a refund. Requests for refunds should be made in writing to the Refund Unit at the Customer Service address indicated on your paper statement, or click on the Customer Service link online. Billing Rights Summary: In Case of Errors or Questions About Your Bill: If you think your bill is wrong, or if you need more information about a transaction which appears on your statement, write or call the Customer Service department as indicated on your paper statement, or click on the Customer Service link online. We must hear from you no later than 60 days after we sent you the first bill on which the error or problem appeared. Although you may telephone us, doing so will not preserve your rights.

What We Need From You When You Have A Billing Inquiry: 1. Your name and account number; **2.** The dollar amount of the suspected error; **3.** Describe the error and explain, if you can, why you believe there is an error. If you need more information, describe the item you are unsure about. While we investigate your inquiry, we cannot report you as delinquent or take any action to collect the amount in question. Please retain any receipts pertinent to your claim.

Special Rules For Charge Card Purchases: If you have a problem with the quality of goods or services that you purchased with the Card, and you have tried in good faith to correct the problem with the merchant, you may not have to pay the remaining amount due on the goods or services. You have this protection only when the purchase price was more than $50 and the purchase was made in your home state or within 100 miles of your mailing address. When contacting us: 1. Tell us your name and account number; **2.** Provide the dollar amount of the suspected error; **3.** Describe the error or the transfer you are unsure of, and explain as clearly as you can why you believe there is an error or why you need more information. We will investigate your complaint and correct any error promptly. If we take more than 10 business days to do this, we will credit your account for the amount you think is in error, so that you will have use of the money during the time it takes us to complete our investigation.

Credit Balance: If a credit balance (designated "CR") is shown on this statement, it represents money owed to you. You may make charges against the credit balance or request a refund. Requests for refunds should be made in writing to the Refund Unit at the Customer Service address indicated on your paper statement, or click on the Customer Service link online. If you do not make sufficient charges against the credit balance or request a refund, we will, within 30 days after expiration of the six-month period following the date of the first statement indicating the credit balance, issue a check to you for the credit balance in your account if the amount is $1.00 or more. **Important Notice to North Dakota Residents:** If an account is past due for two or more billing cycles, a late payment fee of 1.75% of all past due amounts will be added.

We will investigate your complaint and correct any error promptly. If we take more than 10 business days to do this, we will credit your account for the amount you think is in error, so that you will have use of the money during the time it takes us to complete our investigation.

Requests for refunds should be made in writing to the Refund Unit at the Customer Service address indicated on your paper statement, or click on the Customer Service link online. Billing Rights Summary: In Case of Errors or Questions About Your Bill: If you think your bill is wrong, or if you need more information about a transaction which appears on your statement, write or call the Customer Service department as indicated on your paper statement, or click on the Customer Service link online. We must hear from you no later than 60 days after we sent you the first bill on which the error or problem appeared. Although you may telephone us, doing so will not preserve your rights.

What We Need From You When You Have A Billing Inquiry: 1. Your name and account number; **2.** The dollar amount of the suspected error; **3.** Describe the error and explain, if you can, why you believe there is an error. If you need more information, describe the item you are unsure about. When contacting us: 1. Tell us your name and account number; **2.** Provide the dollar amount of the suspected error; **3.** Describe the error or the transfer you are unsure of, and explain as clearly as you can why you believe there is an error or why you need more information. We will investigate your complaint and correct any error promptly. If we take more than 10 business days to do this, we will credit your account for the amount you think is in error, so that you will have use of the money during the time it takes us to complete our investigation.

Credit Balance: If a credit balance (designated "CR") is shown on this statement, it represents money owed to you. You may make charges against the credit balance or request a refund. Requests for refunds should be made in writing to the Refund Unit at the Customer Service address indicated on your paper statement, or click on the Customer Service link online. Do not send cash. Payments received after 12:00 noon or on weekends or holidays may not be credited until the next business day. Please do not send post-dated checks. They will be deposited upon receipt. If payment is made at any other location, there may be a delay in processing. We reserve the right to process checks electronically, at first presentment and any re-presentments, by transmitting the amount of the check, routing number, account number and check serial number to your financial institution. Your checking account may be debited as soon as the same day we receive your payment. If we can not collect the funds electronically at first presentment, we may issue a draft against your account for the amount of the check.

Lost or Stolen Card: If the Card is lost or stolen in the United States, contact us immediately at 1-800-992-3404. Outside the U.S., contact the nearest American Express Travel Service Office or call us collect at 336-393-1111. You are fully protected against any fraudulent use of the Card when you notify American Express before it is fraudulently used. Your maximum liability is $50 should you fail to report its loss or theft.

An additional $5 is charged for billing addresses outside the U.S. Renewal Cards are issued every three years. If the Card you carry is damaged, you may have it replaced sooner by calling Customer Service. You may discontinue your Membership by calling Customer Service. Be sure to keep your copy of the charge slips for comparison to your billed charges.

The Statement Closing Date is the last date that charges and credits are processed to appear on the statement. Your account will be Past Due if payment for your previous month's statement was received after the closing date. To keep your account current, pay by the payment due date shown on your statement.

Billing Rights Summary: In Case of Errors or Questions About Your Bill: If you think your bill is wrong, or if you need more information about a transaction which appears on your statement, write or call the Customer Service department as indicated on your paper statement, or click on the Customer Service link online. We must hear from you no later than 60 days after we sent you the first bill on which the error or problem appeared. Although you may telephone us, doing so will not preserve your rights.

What We Need From You When You Have A Billing Inquiry: 1. Your name and account number; **2.** The dollar amount of the suspected error; **3.** Describe the error and explain, if you can, why you believe there is an error. If you need more information, describe the item you are unsure about. You do not have to pay any amount in question while we are investigating, but you are still obligated to pay the parts of your bill that are not in question. While we investigate your inquiry, we cannot report you as delinquent or take any action to collect the amount in question. Please retain any receipts pertinent to your claim.

Special Rules For Charge Card Purchases: If you have a problem with the quality of goods or services that you purchased with the Card, and you have tried in good faith to correct the problem with the merchant, you may not have to pay the remaining amount due on the goods or services. You have this protection only when the purchase price was more than $50 and the purchase was made in your home state or within 100 miles of your mailing address. (If we own or operate the merchant, or if we mailed you the advertisement for the property or services, all purchases are covered regardless of amount or location of purchase.)

In Case of Errors or Questions About Your Electronic Transfers: Please contact us by clicking on the Customer Service Link online at www.americanexpress.com, or you can call us at 1-800-IPAY-AXP for Pay By Phone and Pay By Computer issues, or 1-800-CASH-NOW for Express Cash and automatic payment issues. You can also write to the Express Cash Operations address indicated on your statement. If you think your statement, receipt, or transaction is wrong, please contact us as soon as possible. We must hear from you no later than 60 days after we sent you the FIRST statement on which the problem or error appeared.

When contacting us: 1. Tell us your name and account number; **2.** Provide the dollar amount of the suspected error; **3.** Describe the error or the transfer you are unsure of, and explain as clearly as you can why you believe there is an error or why you need more information. We will investigate your complaint and correct any error promptly. If we take more than 10 business days to do this, we will credit your account for the amount you think is in error, so that you will have use of the money during the time it takes us to complete our investigation.

Credit Balance: If a credit balance (designated "CR") is shown on this statement, it represents money owed to you. You may make charges against the credit balance or request a refund. Requests for refunds should be made in writing to the Refund Unit at the Customer Service address indicated on your paper statement, or click on the Customer Service link online. If you do not make sufficient charges against the credit balance or request a refund, we will, within 30 days after expiration of the six-month period following the date of the first statement indicating the credit balance, issue a check to you for the credit balance in your account if the amount is $1.00 or more. **Important Notice to North Dakota Residents:** If an account is past due for two or more billing cycles, a late payment fee of 1.75% of all past due amounts will be added.

Billing Rights Summary: In Case of Errors or Questions About Your Bill: If you think your bill is wrong, or if you need more information about a transaction which appears on your statement, write or call the Customer Service department as indicated on your paper statement, or click on the Customer Service link online. We must hear from you no later than 60 days after we sent you the first bill on which the error or problem appeared. Although you may telephone us, doing so will not preserve your rights.

What We Need From You When You Have A Billing Inquiry: 1. Your name and account number; **2.** The dollar amount of the suspected error; **3.** Describe the error and explain, if you can, why you believe there is an error. If you need more information, describe the item you are unsure about. You do not have to pay any amount in question while we are investigating, but you are still obligated to pay the parts of your bill that are not in question. While we investigate your inquiry, we cannot report you as delinquent or take any action to collect the amount in question. Please retain any receipts pertinent to your claim.

Special Rules For Charge Card Purchases: If you have a problem with the quality of goods or services that you purchased with the Card, and you have tried in good faith to correct the problem with the merchant, you may not have to pay the remaining amount due on the goods or services. You have this protection only when the purchase price was more than $50 and the purchase was made in your home state or within 100 miles of your mailing address. (If we own or operate the merchant, or if we mailed you the advertisement for the property or services, all purchases are covered regardless of amount or location of purchase.)

When contacting us: 1. Tell us your name and account number; **2.** Provide the dollar amount of the suspected error; **3.** Describe the error or the transfer you are unsure of, and explain as clearly as you can why you believe there is an error or why you need more information. We will investigate your complaint and correct any error promptly. If we take more than 10 business days to do this, we will credit your account for the amount you think is in error, so that you will have use of the money during the time it takes us to complete our investigation.

Credit Balance: If a credit balance (designated "CR") is shown on this statement, it represents money owed to you. You may make charges against the credit balance or request a refund. Requests for refunds should be made in writing to the Refund Unit at the Customer Service address indicated on your paper statement, or click on the Customer Service link online. If you do not make sufficient charges against the credit balance or request a refund, we will, within 30 days after expiration of the six-month period following the date of the first statement indicating the credit balance, issue a check to you for the credit balance in your account if the amount is $1.00 or more. **Important Notice to North Dakota Residents:** If an account is past due for two or more billing cycles, a late payment fee of 1.75% of all past due amounts will be added.
